

Research Area:

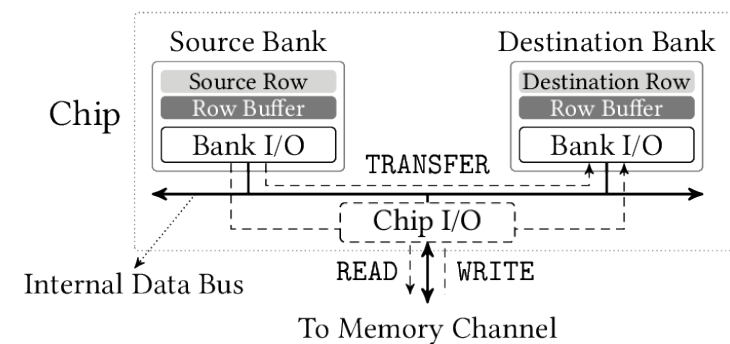

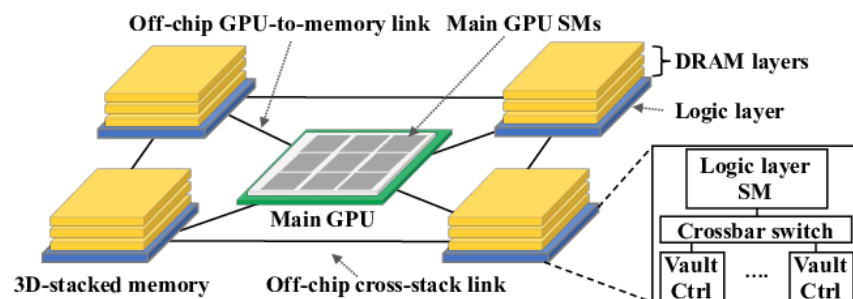

- GPU and heterogeneous architecture
- Virtualization
- Hardware-software cooperative design
- Edge architecture and system-on-the-edge
- Serverless computing
- Memory subsystems

Our architecture research group provides cutting-edge research work to enable the future of computer and computing system

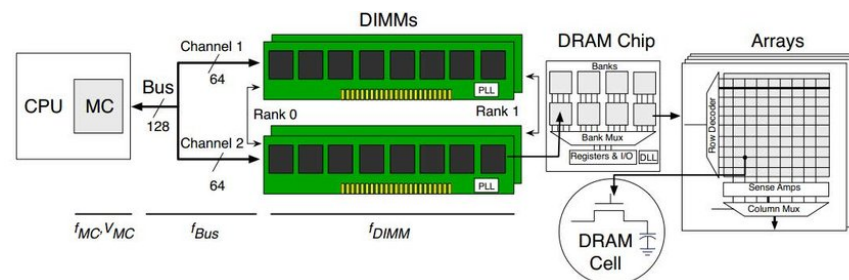

Asst. Prof. Dr. Rachata Ausavarungnirun

ผู้ช่วยศาสตราจารย์ ดร. รัชตะ อัสวรุ่งนรินทร์

Collaboration:

Computer Engineering
