

**Announcement of the Sirindhorn International Thai-German Graduate School of Engineering
on the Revision of Master Thesis and Doctoral Dissertation's Title Guidelines
for Graduate Students**

As regulated by TGGS, students will take the Qualifying Examination (only for doctoral students), Proposal Examination, Progress Examination, and Defense Examination. The master thesis and doctoral dissertation's title can be revised by the examination committee.

For the clarification of the process on the revision of Master Thesis and Doctoral Dissertation's title, the committee meeting of the Sirindhorn International Thai-German Graduate School of Engineering No. 2/2022 on February 2, 2022 had approved the Revision of Master Thesis and Doctoral Dissertation's Title Guidelines for Graduate Students as follows:

1. The examination committee can only revise the title of a Master's Thesis or a Doctoral Dissertation after the Progress Examination has been completed. The title of the Master's Thesis or Doctoral Dissertation must be edited/revised on the Progress Evaluation sheet by the examination committee. The revised title of the Master's Thesis or Doctoral Dissertation that the committee has recommended will be used in the Defense Examination.

However, a research title used for the Qualifying Examination is not considered as a Doctoral Dissertation title until the Progress Examination has been completed.

2. Revision of the Master's Thesis and Doctoral Dissertation's title must be done so that it is still appropriate and within the scope of work which is similar to or covers the original Master's Thesis or Doctoral Dissertation. However, if the topic and research content has been changed completely in different directions or significantly not related to the original title and work, it must be considered as a change in the title of the Master's Thesis or Doctoral Dissertation, not a revision of the title. By changing in the title of the Master's Thesis or Doctoral Dissertation, the students will have to re-start the entire examination process with the new title.

This announcement shall come into force from the day following the announced date onwards.

Announced on March 14, 2022
