

Course 090245354

Advanced Database Management Systems

King Mongkut's University of Technology North Bangkok
The Sirindhorn International Thai-German Graduate School of Engineering
Electrical and Computer Engineering Program

Section 1: General Information

1. Course code and course title

090245354 Advanced Database Management Systems

2. Total credits

3 credits ☐ (2-2-5) ☐ (3-0-6) ☐ (3-0-9) ☐ (2-3-7)

3. Curriculum and course category:

Curriculum: *Master of Engineering in Electrical and Computer Engineering*

Course category: Required Courses

☐ Core Course ☐ Specific Core Course

☐ Industrial Internship ☐ Master Thesis

Elective Courses

☐ General Elective ☒ Specific Elective ☐ Other Elective

4. Course coordinator/ Instructors

Course Coordinator: _____

Instructor(s): Yodsawalai Chodpathumwan

5. Semester/ year of study

☐ Semester 1 (Aug. to Dec.) ☒ Semester 2 (Jan. to May) Academic Year: 2023

6. Pre-requisite (if any)

☒ No ☐ Yes, please provide:

7. Co-requisites (if any)

☒ No ☐ Yes, please provide:

8. Venue of study

Lecture Day/Time: Monday at 13.00-16.00

☒ On-site: Lecture Room No.:.....1102..... Floor:....11....

☒ TGGs, KMUTNB ☐ Faculty of Engineering, CU ☐ RWTH

☒ On-line*: Teaching Media: ☐ Microsoft Teams ☐ Google Meet
☐ Zoom ☐ Webex

Program: **ECE**
Degree Level: Master

Faculty/College: TGGS

☒ Other (specify)Skype.....

Remark: * During COVID-19, the teaching can be on-site and/or on-line according to TGGS Policy.

9. Information for quality assurance in education

This course shows evidence of:

- Integration of research or creative activities with instruction; use of research-based learning management; knowledge management practices for learning improvement
- Integration of academic services and course implementation

10. Date of latest revision:

Dec 2022

Section 2: Course Description and Implementation

1. Course Description (As written in the Official Approved Curriculum)

Advanced topics in database management system, information system design and implementation, and recent developments in the fields. Query languages. Data indexing. Query processing. Data exchange and integration. Other research topics in data management.

2. Number of hours per semester

Lecture	Practice	Self-study
45 hours/ semester (3 hours/week*)	30 hours (2 hours/week*)	75 hours/ semester (5 hours/week*)

Remark: * Based on 15 weeks of lecture

Course Category: ☒ Lecture ☐ Practice ☐ Laboratory
Course Evaluation: ☒ A-F ☐ S/U ☐ P

3. Number of hours per week for academic guidance to individual students

- ☐ 1. Giving academic advice (minimally number hour per week) during the office hour

☒ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐

The student can arrange the time via email for the meeting date/time.

- ☐ 2. Adopting information technology-based academic advising

☒ Email: yodsawalai.c@tggs.kmutnb.ac.th

☐ Phone:

☐ Communication Apps: Line ID:

(Please notify the lecturer when adding the line.)

Program: **ECE**
Degree Level: Master

Faculty/College: TGGs

- ☐ Meeting Online: The platform will be informed to students upon the request.
☐ Other (specify)
☐ 3.

4. Course Learning Outcomes (CLOs): Students should be able to:

- CLO 1. To explain the database concepts, modeling principles and database theories
 CLO 2. To analyze real-world data management scenarios, database system design and techniques appropriate to data schemas and constraints
 CLO 3. To apply database concepts, principles and theories to solve problems in real-world context and communicate the result effectively
 CLO 4. To comprehend and analyze recent researches and publication in database systems

5. The mapping between Expected Learning Outcomes (ELOs) from the curriculum and Course Learning Outcomes (CLOs)

Table 5.1 ELOs-CLOs Consistency (for a subject-specific course/ a specific curriculum)

ELOs/CLOs consistency	CLO 1	CLO 2	CLO 3	CLO 4
ELO1	✓			
ELO2		✓		
ELO3			✓	
ELO4				
ELO5				
ELO6				
ELO7				
ELO8				✓
ELO9				

Remark: All ELOs and ELOs for the course (highlighted row) are as written in the Official Approved Curriculum.

Table 5.2 Mapping desirable characteristics of KMUTNB graduates and CLOs (for non-specific courses designed for various curriculums)

Consistency between desirable characteristics of KMUTNB Graduates- CLOs	CLO 1	CLO 2	CLO 3	CLO 4
1. Professional credentials with critical thinking skills			✓	✓
2. Integrity and social responsibility				
3. Innovative and technopreneur mindset				✓
4. Global Competence			✓	

Section 3: Student Improvement in relation to Course Learning Outcomes (CLOs)

Organizing learning to develop skills/ knowledge; evaluation of CLOs in accordance with the ones identified in Section 2.4

Course Learning Outcomes (CLOs)	Teaching Methods compliant with CLOs	Evaluation Methods compliant with CLOs
CLO 1	<ul style="list-style-type: none"> Lecture* Individual assignment 	<ul style="list-style-type: none"> Assignment evaluation
CLO 2	<ul style="list-style-type: none"> Lecture* Individual assignment 	<ul style="list-style-type: none"> Assignment evaluation
CLO 3	<ul style="list-style-type: none"> Project 	<ul style="list-style-type: none"> Project Presentation
CLO 4	<ul style="list-style-type: none"> Paper Review 	<ul style="list-style-type: none"> Discussion

Remark: * Lecture on the concept of the topic is introduced with basic or fundamental definitions, visualization and correlations. For the complicated equation, the derivation from the basic laws can be shown to students. So, the students do not memorize the equations but understand the basic concept and basic equation. The lecturer will introduce the advanced and new concepts, technologies, and findings to students from publications such as journals and websites and from the research and industrial experiences.

** Active learning by asking questions related to the topic in the lecture and encouraging the students to response to the questions. If the students cannot response with answers, then the lecturer will give some guidance until the students can response.

*** Quiz in the closed-book format on the basic concepts and equations with simple problem solving to evaluate their learning. The solution will be given to students after grading, so they can identify their mistakes and weakness.

**** Exam on the basic concepts and equations with simple problem solving in the closed-book format as a review, whereas the complicated/integrated problem solving will be worked in the open-book format.

Section 4: Lesson Plan and Evaluation

1. Lesson Plan

Program: **ECE**
Degree Level: Master

Faculty/College: TGGs

Week	Topics/Details	CLOs	Hours	Learning and teaching activities; teaching media (if any)	Lecturer
1	Overview of Database Management System	CLO 1	3.0	<ul style="list-style-type: none"> Lecture presentation slides Q&A 	Yodsawalai
2-4	Relational Databases	CLO 1 CLO 2 CLO 3	9.0	<ul style="list-style-type: none"> Lecture presentation slides Q&A Assignment 	Yodsawalai
5-6	Database Design Theory	CLO 1 CLO 2 CLO 3	6.0	<ul style="list-style-type: none"> Lecture presentation slides Q&A Assignment 	Yodsawalai
7-9	Non-Relational Databases System	CLO 1 CLO 2 CLO 3	9.0	<ul style="list-style-type: none"> Lecture presentation slides Q&A Assignment 	Yodsawalai
10-11	Data Storage System	CLO 1 CLO 2 CLO 3	6.0	<ul style="list-style-type: none"> Lecture presentation slides Q&A Assignment 	Yodsawalai
12-15	Recent Research in Database Systems	CLO 4	12.0	<ul style="list-style-type: none"> Paper review Discussion 	Yodsawalai
16	<i>Presentation</i>		3.0	Project presentation	
		Total	48.0		

2. Evaluation Plan (in accordance with OBE 2 mapping framework)

Course Learning Outcomes (CLOs)	Evaluation Methods	Week of Evaluation	Percentage of Evaluation
CLO 1, 2, 3	Assignments	1-11	30%
CLO 4	Projects	16	70%

Section 5 Teaching/Learning Resources

Textbooks and materials

- H. Garcia-Molina. "Database systems: the complete book." Pearson Education India, 2008.

- J. Gray. "The transaction concept: Virtues and limitations." VLDB. Vol 81. 1981.
- S. Pal, et al. "Indexing XML Data Stored in a Relational Database." VLDB, 2004.

Section 6 Course Evaluation and Improvement

1. Course evaluation by students

The students will have an opportunity to evaluate the effectiveness of the course in a form of paper survey and group interview at the end of each semester. The results of survey and interview including the grading will be reviewed by the curriculum meeting to evaluate the course's effectiveness.

2. Strategies for assessing learning management

The students will have an opportunity to evaluate the teaching of the course in a form of paper survey and group interview at the end of each semester. The results of survey and interview including the grading will be reviewed by the curriculum meeting to evaluate the teaching as well as returning to the lecturer for further improvement.

3. Improvement schemes of course implementation

The evaluation from the students including the grading will be submitted to the curriculum meeting for reviewing and brainstorming to improve teaching of each course. Comments and suggestions given by the curriculum meeting will be informed to the responsible lecturer of each course.

4. Verification of students' learning outcomes, referred to OBE 2 and 3

Program: **ECE**
Degree Level: Master

Faculty/College: TGGs

The grading of this course will be evaluated and reviewed by the Department meeting and the TGGs executive board meeting in order to verify its appropriateness before the final approval.

5. Course review and improvement plans

The results of the grading evaluation and student evaluation will be submitted to the curriculum meeting for reviewing and brainstorming to improve the effectiveness of the offered courses. Comments and suggestions will be informed to the responsible lecturer of each course.
